Job Shadowing Placement
Mentor Responsibilities
Pike Freshman Center

It has been a long standing tradition at Pike High School that all members of the freshman class have the opportunity to participate in a job shadowing experience. The responsibilities and expectations of the person mentoring our student are as follows:

- Provide a safe job shadowing environment
- Share details about the profession to give the student an overview of the educational requirements, what courses you suggest they take while in high school to be better prepared for the career, what is the job outlook, and any other pertinent information you think the student should learn
- Allow an experience that is at least 3 hours in length
- Provide regular supervision of the student in order to enhance and support student learning

We really value the community involvement and support of our school and students. We appreciate your time and commitment in making our students aware of the opportunities available to them. Thank you.

If you have questions or concerns, please contact a member of the Freshman Academy Leadership Team:
